DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372:

Group I, claim(s) 1-7 and 23, 26-32, and 35-36 drawn to a method of executing a dynamically loaded program by executing the program, generating a library file of application program files loaded during the execution, and executing a program a second time using this library file, classified in class 717, subclass 131.

Group II, claim(s) 8-15, 24, and 33, drawn to a method of optimizing a dynamically loaded program by creating a library file of application program files loaded during the execution and optimizing the program with the library file, classified in class 717, subclass 151 and 163.

Group III, claim(s) 16-22, 25, and 34, drawn to a method of testing a dynamically loaded program by creating a list of application program files, and a library file of application program files loaded during the execution and optimizing the program with the list, classified in class 717, subclass 124 and 127.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, invention I has a utility of a method of program execution, invention II has a utility of program optimization, and invention III has a utility of program testing.

Art Unit: 2122

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and III, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth A Gross whose telephone number is (703) 305-0542. The examiner can normally be reached on Mon-Fri 7:30-5.
